GreenPartyIN.com

We want to raise the voices of society's most oppressed and silenced. We are the political opposition that will make sure that Indiana's political class works for the 99% and not just for the 1% - for the common good!

Paid for by the Indiana Green Party.
Not authorized by any candidate or candidate committee.

We are grassroots activists, environmentalists, advocates for social justice, nonviolent resisters, and regular citizens who've had enough of corporate-dominated politics.

Ten Key Values

The Green Party and the movements surrounding it are rooted in the Four Pillars: Democracy, Ecological Wisdom, Nonviolence, and Social Justice. In the US, these Four Pillars have been expanded into the Ten Key Values which unite Greens worldwide:

- Grassroots Democracy
- Social Justice & Equal Opportunity
- Ecological Wisdom
- Nonviolence
- Decentralization
- Community-Based Economics
- Feminism & Gender Equity
- Respect For Diversity
- Personal & Global Responsibility
- Future Focus & Sustainability

Greens use the Ten Key Values to evolve platforms that spell out Green positions on the issues affecting our lives and propose things we'd do about them.

Everything we do is based on our four pillars:

We demand public financing of elections, open debates, and more representative voting systems.

The human cost of climate change is too high. We need to get off fossil fuels and on to renewable energy.

Our country's long wars and worldwide military presence are immoral and unsustainable. Our military budget must be cut dramatically.

Falling wages and rising bills are hitting most of us, and the most vulnerable are hit the hardest. We demand a living wage and a real safety net.
